PART-TIME SCHOOL, FULL-TIME MISSION

At FCA, students fulfill their high school requirements for college admission while also having the opportunity to earn a two-year college degree—all in a three-day-a-week on site schedule with one day of at home work to complete. In partnership with families, FCA guides students through a five-year part-time high school program while still maintaining the flexibility and benefits of homeschooling.

FCA students can have most of their tuition covered — thanks to state scholarships distributed through Step Up For Students! These scholarships are available to all Florida homeschoolers, making faith-based, flexible education more accessible than ever.
